

## Cabin Flyer

[Spring, 1979: This is a flyer or announcement posted at a trail club meeting, an invitation to all club members to come and help with the just begun construction of the TATC Cabin. At the top of the page there is a sketch of the cabin's location, with instructions on where to park and how to get there—at that time, and for several years, the Park Service did not allow us to park any cars in White Rock Gap; cars had to be left at one of the overlooks, about half a mile (steeply) uphill in either direction]
